

40-90

First Defense™ Disinfectant Concentrate

Foster® 40-90 First Defense™ Disinfectant Concentrate Now Registered in All 50 States!

Whether it's cleaning up after a disaster, or for routine maintenance, Foster® First Defense™ Disinfectant Concentrate is your first choice.

A one-step disinfectant, cleaner, sanitizer, fungicide, mildewstat, virucide and deodorizer, Foster® First Defense™ can be used on hard and soft surfaces to control odor-causing bacteria.

An economical concentrate, dilute up to 2oz/gallon of water to yield 64 gallons of use solution. After dilution apply to affected materials with cloth, mop, sponge or coarse spray and allow to dry.

Use on Porous and Semi-Porous Materials

Foster® 40-90 is effective against odor-causing bacteria such as musty water damage and smoke from fires on items like carpeting, drywall, trim and frame lumber.

Use on Hard and Non-Porous Surfaces

Easily disinfect tabletops, counters, cabinets, chairs, floors, walls, even metal and finished woodwork.

Disinfect Protective Gear

Use Foster® 40-90 to clean and sanitize headgear, hard hats, mask respirators, goggles, face shields, hearing protectors and ear muffs to keep your valuable safety gear free from contaminants.
